

NOTE

Sub: Export Transhipment Containers – Forwarding of Seal particulars of ETP to Gateway Ports – reg.

Kind attention is invited to the ETP module for Transhipment of Export Containers to Gateway Ports. In the module the Seal number of the Export Transhipment Containers is not captured. So the officer at the Gateway Port receiving the containers is not in position to verify the seal. In order to overcome the technical hitch till the same is resolved in the ICEGATE system the following procedure may be followed.

The Preventive Officer who gives the Stuffing Report and does the Sealing of the container is directed to consolidate all the Export Transhipment container details of the particular CFS for the day, along with ETP no and seal numbers, and forward the same to the Gateway Port (Docks admin) the same day through an official / exclusive email of the Officer. The Officer giving the Let Export may be directed to supervise and ensure that the report is sent at the end of the day to all the respective Gateway ports for verification. At Gateway Port, the physical verification of seal number by Proper officer may be done and compared with information provided in the mail.

This practice shall be followed till provision for seal number is incorporated in ETP module.

(BIDHAN CHANDRA)
ADDITIONAL COMMISSIONER OF CUSTOMS
(CMFC)
